Projects

NestIn – Hostel Booking Platform | *React, Node.js, Express, MongoDB, Tailwind CSS* | Live | GitHub

- Engineered a full-stack hostel discovery and booking platform featuring granular Role-Based Access Control (RBAC) for Tenants and Property Owners.
- Built direct tenant-to-owner messaging and real-time inquiry workflows, reducing booking communication overhead.
- Implemented secure JWT authentication with httpOnly cookie storage and environment-aware CORS configurations.
- Optimized database queries with MongoDB indexing and decoupled client-server requests for seamless UI rendering.

CareerLink – Job Portal Platform | *React, Node.js, Express, MongoDB, JWT, Cloudinary* | Live | GitHub

- Developed a scalable job portal with multi-role access control for Candidate, Recruiter, and Admin dashboards.
- Integrated Cloudinary API for automated resume uploads, candidate profile parsing, and dynamic media management.
- Implemented real-time job application tracking, status updates, and automated interview invitation pipelines.

BlogInsta – Social Blogging Application | *React, Node.js, Express, MongoDB, JWT* | Live | GitHub

- Architected a social content platform supporting full CRUD operations with ownership-level authorization.
- Implemented dynamic engagement features including likes, comments, and user follow/unfollow functionality.
- Deployed decoupled architecture with frontend on Netlify and backend REST service on Render with cross-origin protection.

Productivity Dashboard | *React, Node.js, Express, MongoDB, JWT* | Live | GitHub

- Built a multi-tool web suite featuring a Notes Manager, custom Pomodoro Timer, and Activity Planner.
- Resolved complex cross-domain cookie authentication challenges involving SameSite and Secure attributes across production environments.
